### Budget guidelines

To be sure that the Review Panel understands why there is a need for funding, the applicant should **prepare a line-by-line, detailed list of expenses** that is envisioned for this project. Budgets should be submitted in U.S. dollars. The budget should be prepared in a logical manner and offer enough detail that a reviewer will be able to understand exactly what the figures mean and how that figure was determined.

The proposal should also include a narrative text statement that explains very precisely the proposed budget so that members of the Panel will understand how exactly the money would be spent. The budget narrative should follow the actual budget presentation itself and describe in detail the costs presented in the budget. In other words, the narrative explains, line by line, what the numbers mean and how they were determined.

“Cost Sharing” refers to contributions from the organization or other entities that are different from the U.S. Embassy. It also includes in-kind contributions such as volunteers’ time and donated venues.

**Program Expenses** should cover costs for the project activities. They may include preparation or acquisition of literature or educational materials; honoraria to specialists or associates; expenses for seminars or conferences (speaker's fee, preparation of materials and room rental), etc.

If the proposal seeks funding to purchase items/services with any single item exceeding \$1,000 in cost, the application must include three pro-forma estimates from different vendors stipulating the market price of the desired item.

**Salaries** should be paid only to the people who will have a direct and specific involvement in the project which is not otherwise within the regular scope of their duties and who will spend a majority of their time on the project. Salaries should not be requested for the ongoing, operational job remuneration of the organization staff. The salary should be calculated on the total number of hours worked for the duration of the project (the percentage of the person's monthly involvement with the project is the preferable calculation formula). Salary levels should be reasonable and no higher than other local salaries. Please bear in mind that the total amount of salaries to be funded should not exceed 20% of the total budget.

**Equipment** refers to the following: computers, copying machines, printers, or other technical devices necessary for the fulfillment of the project the unit price of which exceeds \$5,000. Other equipment proposed for purchase that is not critical to the fulfillment of the project will be excluded (for example, the purchase of a computer for organizing a conference is not a justified expense). Remember that renting equipment for the short-term project activities is often preferable to the Panel than an outright purchase.

The use of "miscellaneous expenses" as a budget item is unacceptable.

**Meals** not integral to a project event are not acceptable grant expenses. An effort should be made to secure funding from other sources for food costs. When these costs cannot be supported otherwise, they should be clearly justified and limited to a maximum of 10% of the total award amount. This includes expenses associated with individual per diems for grant-related activities.

**Indirect Costs:** These are costs that cannot be linked directly to the project activities, such as overhead costs needed to help keep the organization operating. If your organization has a Negotiated Indirect Cost Rate (NICRA) and includes NICRA charges in the budget, attach a copy of your latest NICRA. Organizations that have never had a NICRA may request indirect costs of 10% of the modified total direct costs as defined in 2 CFR 200.68. "Cost Sharing" refers to contributions from the organization or other entities other than the U.S. Embassy. It also includes in-kind contributions such as volunteers' time and donated venues.

**Entertainment Costs,** including amusement, diversion, and social activities and any associated costs are unallowable, except where specific costs that might otherwise be considered entertainment have a programmatic purpose and are authorized either in the approved budget for the award or with prior written approval of the U.S. Embassy Grants Officer.

**Alcoholic Beverages:** Please note that award funds cannot be used for alcoholic beverages.

**Other information:**

Grants for publication of materials should describe the intended audience, content, and how materials will be distributed. Grants for seminars/workshops should describe the expected audience, content, and timeframe. If a seminar or a training workshop is proposed in the application, it should also contain the attachments of the training materials that will be used for the training (if available).

**Recommendations:**

Please do not send the application before you:

- Read this document once more, and make sure you understand the guidelines and that your proposal fits the purposes of the program.
- Carefully review the application to make sure it is complete and free of errors.
- Ask someone who does not know anything about your project to read your proposal to determine if it is understandable, and if the provided information is comprehensive enough.
- Ask someone with experience applying for grants to look at the application and provide advice on improving it.
- Make sure the application is neatly typed and easy to read in English. Perfect English is not required but the proposal must be understandable to an English speaker.
